

Service

Yes, yes, yes and yes

Steadplan

WE CAN, WE DO

A service facility unrivalled

Since our earliest days, we have built our reputation on service. As a result, Steadplan's ever-expanding MAN ERF Service Centre offers the North West's truck operators more. Much more.

More in terms of day and night opening hours. More in terms of what we can do for your vehicles. More in terms of how we can look after you and your business. Starting off with Steadplan's own purpose-built, VOSA approved MoT test station. Waiting drivers can now take full advantage of a state of the art rest room, complete with microwave cooking facilities and cable TV. And should you need it, we also have a dedicated tractor unit for collecting and delivering trailers.

In all these ways, Steadplan is a true '21st century' service specialist. And being completely in charge of our own destiny, we have no imposed or pre-set limitations on what we can and cannot do.

Service, by its very nature, is open ended. That's why the last page of Steadplan's rulebook is always unwritten - it's for you, to tell us exactly what you need us to do.

Service from Steadplan. Commitment unlimited.

Put Us To The Test
The result of a £150,000 investment, Steadplan offers the most comprehensive and up to date MoT test facility in the North West.

1st For Drivers, Too
Steadplan is the first choice with drivers too - thanks to a brand new rest room complete with full catering facilities and cable TV.

Collection And Delivery
Our dedicated tractor unit can collect and return your trailers, saving you valuable time, hassle and expense.
